

7660 Series

Automatic Parts Washers

#1 in North America for High-Pressure Cleaning Equipment

Front-Load Models

Recessed base provides ample foot clearance for easy loading and unloading

7660 Series models include oil drain container, small parts basket, parts tree and containment ring

Control panel includes 0 to 60-minute wash timer, 0 to 12-hour heater timer, oil-skimmer with 30 min. timer and turntable on/off switch

Alert light for low-water shutoff that protects heating element in case water level drops

Thermostatically controlled heater maintains optimum cleaning temperature

Sump level gauge permits water level to be monitored externally

4-hook parts tree (standard) allows parts to be hung for total cleaning coverage

Intermediate spray bar adjusts for vertical or horizontal cleaning positions without tools. Shown with standard small parts basket and containment ring

Built-in oil skimmer and oil drain container removes oil from cleaning solution in sump

Sump access panels make for easier sump clean-out

Easy access debris screen prevents foreign objects and small parts from falling into sump

All Hotsy Automatic Parts Washers are designed for safe, aqueous cleaning

FEATURES

- Vertical Seal-less Pump: 5HP, 110GPM @ 50 PSI
- 750-Pound Load Capacity
- 50-Gallon Sump Capacity
- 9 kW Heater

Double-pitched sump floor and front access drain cap permit total flushing

Heavy-duty wheels for easy moving within the shop and convenience in disposing wastewater

1-YEAR WARRANTY ON PARTS
90-Day Labor Warranty
EXTENDS TO 1-YEAR with exclusive use of Hotsy Detergents

7660 SERIES Front-Load Automatic Parts Washers

■ 750-Pound Load Capacity

■ 230V, 1 or 3 PH; 230V, 460V or 575V, 3 PH

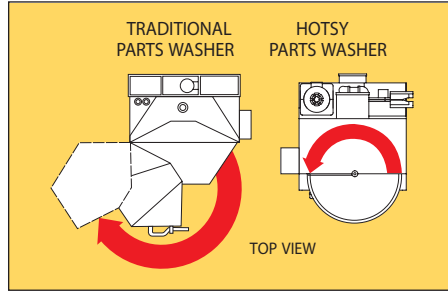

■ 50-Gallon Sump Capacity

An Automatic, Cost-Effective Parts Cleaning Solution

Efficient and solvent-free automatic parts cleaning

Say goodbye to dirty, time-consuming manual cleaning with a Hotsy 7530 Series Front-Load Automatic Parts Washer. That means trained technicians can concentrate on more productive work. Hotsy's automatic parts washers combine hot water and modern detergents to give you cleaning action that's far more powerful than any solvent.

Hotsy's unique internal roll-away door saves floor space and prevents wash water from dripping on the shop floor

Clean better with Hotsy TubMate detergents

Hotsy offers a complete line of biodegradable TubMate detergents to give you a total parts-washing solution. TubMate detergents are specially formulated to give you the best cleaning action at temperatures as low as 110°F, which means significant savings in energy costs. TubMate detergents contain a blend of rust and corrosion inhibitors to help protect your machine and parts, as well as a defoamer to prevent foaming in the machine.

Hotsy TubMate detergents are environmentally safe to use because they contain no caustic soda, caustic potash, phenolics, chlorinated solvents or heavy metals. And since they're highly concentrated, a little goes a long way.

Ask your Hotsy Dealer for details on the **EXTENDED 1-YR LABOR WARRANTY** with exclusive use of Hotsy Detergents!

SPECIFICATIONS

MODEL	WORKING HEIGHT	TURNTABLE DIAMETER	VOLT/PH	AMPS	SHIP WT (lbs)
7660	48"	28"	230/1	58	929
7662	48"	28"	230/3	36	929
7663	48"	28"	460/3	17	929
7664	48"	28"	575/3	14	929

Dimensions: 83"H x 50" W x 51"D

OPTIONS for 7660 SERIES

- **Filtration & Sump Sweep** quickly removes sediment from the sump floor through 100 or 200 GPM filters to help extend the life of wash water
- **Two-Tier Turntable** adds second turntable for greater capacity
- **Heater & Skimmer Timers** (24 hour / 7 day)
- **Automatic Water Fill** automatically adds water if water level drops
- **Hour Meter** displays elapsed time
- **60 Mesh Debris Screen Tray Insert** provides more thorough screening of sump solution
- **Rubber Turntable Mats** to protect parts being cleaned
- **Wastewater Drum Evaporator** is ideal for eliminating very low volumes of wastewater for drying sludge

Spend some time with a Hotsy Expert

Hotsy has more than 130 local distributors in North America, all factory-trained to properly evaluate your parts cleaning needs. Over 80% of Hotsy's distributors have been supporting Hotsy systems for more than 20 years.

This seasoned network of local service professionals will ensure you get the safest, most effective and most efficient cleaning solution to your specific cleaning need.

A Hotsy APW for every application

Whether the parts you're cleaning are big or small, wide or narrow, heavy or lightweight, Hotsy has a top-load or front-load automatic parts washer to meet your parts cleaning needs.
